Warranty Policy

We stand behind the parts we supply and the work we perform. Coverage depends on who supplied the part and the warranty that came with it.

1

Parts We Supply

Parts we supply are covered for the full duration of the manufacturer's or supplier's warranty. Whatever warranty comes with the part from wherever we bought it, you get. **Keep your invoice; warranty claims require it.**

2

Labor Coverage

Our labor is covered for the same period as the parts warranty on that job. If a part we supplied fails under warranty, we will replace it, and the labor to swap it is on us.

3

Customer-Supplied Parts: No Warranty

Parts brought by the customer are not covered by Bennett Built Customs - not the part, and not the labor if the part fails and the job has to be done again. Bring your own parts, you own the risk.

4

What Is Not Covered

This warranty does not cover normal wear and tear; damage caused by accidents, misuse, or neglect; problems unrelated to the work we performed; or vehicles used for racing or subjected to commercial abuse beyond normal use.

5

Where Warranty Work Is Performed

Warranty work will be completed at our shop location or another location agreed to by both the customer and Bennett Built Customs. Towing and transportation costs are not covered.

Ask us about the warranty on your specific parts before we start - we'll tell you exactly what it is.

This policy applies to work performed by Bennett Built Customs, LLC.
